

Name: _____

Where Is It?

Did you know that some words tell you the position or direction of objects?

The sentences below are missing words. Each missing word is a "positional word." A positional word tells you where something is.

The sentences are in sections. Each section has a box with three positional words. Choose which word goes in each blank that correctly explains where something is on the back of the \$1, \$5, and \$10 bills. You can use the *Money Adventure* mobile app to look at the back of the bills.

\$1 Dollar Bill

Left

Inside

Under
